

# SAFETY DATA SHEET

# **CAROUSEL**

Infosafe No.: LQ73T Issued Date: 24/06/2016 Issued by: JASOL AUSTRALIA

### 1. IDENTIFICATION

**GHS Product Identifier** 

**CAROUSEL** 

**Product Code** 

2042410

**Company Name** 

JASOL AUSTRALIA

**Address** 

41-45 TARNARD DRIVE BRAESIDE VIC 3195 Australia

**Telephone/Fax Number** 

Tel: 03 95805722 Fax: 03 95809902

**Emergency phone number** 

1800 629953

### Recommended use of the chemical and restrictions on use

Concentrated Disinfectant Reodorant. For general use: ie disinfecting toilet, bathroom and kitchen floor areas. Washing benches, paint work, rubbish tins, drains etc, use 1 part CAROUSEL to 40 parts water (25ml per litre). As a general rule for increased residual fragrance, increase the concentration of CAROUSEL used. CAROUSEL can be used neat in problem areas such as dog kennels, catteries or rotting refuse.

### **Other Information**

Jasol (a division of George Weston Foods Limited) believes the information in this document to be accurate as at the date of preparation noted in the header of the SDS, but to the maximum extent permitted by law, Jasol accepts no responsibility for any loss or damage caused by any person acting or refraining from action because of this information.

The provision of this information should not be construed by anyone as a recommendation to use this product. In particular, no one should use any product in violation of any patent or other intellectual proprietary rights or in breach of any statute or regulation.

Users should rely on their own knowledge and inquiries and make their own determination as to the applicability of this information in relation to their particular purposes and specific circumstances. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace and in conjunction with other substances or products.

### 2. HAZARD IDENTIFICATION

# GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

### **Ingredients**

Name	CAS	Proportion
Water	7732-18-5	60-100 %
Surfactants		0-10 %
Quaternary Ammonium Compound	63449-41-2	0-5 %
Other ingredients determined not to be hazardous	Not required	Balance

### 4. FIRST-AID MEASURES

#### **Inhalation**

If inhaled, remove affected person from contaminated area and keep at rest in a position comfortable for breathing. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

#### Ingestion

Do NOT induce vomiting. Wash/rinse out mouth thoroughly with water. Seek medical attention.

# Skin

Wash affected area thoroughly with soap and water after handling. If symptoms develop seek medical attention.

#### **Eve contact**

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses, if present and easy to do. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and/or persist seek medical attention.

### **First Aid Facilities**

Eyewash and normal washroom facilities.

### **Advice to Doctor**

Product is a dilute solution of surfactant and quaternary ammonium compound. Vomiting has not been induced because of risk of aspiration into the lungs. Treat symptomatically. Contact Poisons Information Centre.

### Most important symptoms/effects, acute and delayed

No adverse health effects expected if the product is handled in accordance with this MSDS and the product label.

# Other Information

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

### 5. FIRE-FIGHTING MEASURES

# **Suitable Extinguishing Media**

Use appropriate fire extinguisher for surrounding environment.

### **Hazards from Combustion Products**

Non combustible material.

# **Specific Hazards Arising From The Chemical**

This product is non combustible. However, following evaporation of aqueous component under fire conditions, the non-aqueous component may decompose and/or burn.

### **Decomposition Temperature**

Not available

### Precautions in connection with Fire

Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) operated in positive pressure mode. Fight fire from safe location.

### **6. ACCIDENTAL RELEASE MEASURES**

#### **Emergency Procedures**

Wear appropriate personal protective equipment and clothing to prevent exposure. As a water based product, if spilt on electrical equipment the product will cause short-circuits. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

### 7. HANDLING AND STORAGE

### **Precautions for Safe Handling**

Avoid inhalation of vapours and mists, and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

### Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Store away from incompatible materials. Ensure that storage conditions comply with applicable local and national regulations.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Occupational exposure limit values

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

### **Biological Limit Values**

No biological limits allocated.

### **Appropriate Engineering Controls**

Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

### **Respiratory Protection**

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements.

Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

### **Eye Protection**

Safety glasses with side shields, chemical goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

# **Hand Protection**

Wear gloves of impervious material such as rubber or plastic. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations.

Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

### **Body Protection**

Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

### **Form**

Liquid

### **Appearance**

Clear, pink, mobile, frothing liquid with a bubblegum fragrance.

### Colour

Pink

#### Odour

Bubblegum

# **Decomposition Temperature**

Not available

# **Melting Point**

Not available

## **Boiling Point**

100°C

## **Solubility in Water**

Miscible at all concentrations

## **Specific Gravity**

0.998

### рΗ

5.60-6.50

# **Vapour Pressure**

23 hPa @ 20C

# Vapour Density (Air=1)

Not available

# **Evaporation Rate**

Not available

#### **Odour Threshold**

Not available

# Viscosity

Not available

# Partition Coefficient: n-octanol/water

Not available

### **Flash Point**

Not available

# Flammability

Non combustible

## **Auto-Ignition Temperature**

Not available

# Flammable Limits - Lower

Not available

# Flammable Limits - Upper

Not available

## **10. STABILITY AND REACTIVITY**

# Reactivity

Reacts with incompatible materials

## **Chemical Stability**

Stable under normal conditions of storage and handling.

## **Conditions to Avoid**

Extremes of temperature and direct sunlight

### **Incompatible materials**

Not available.

### **Hazardous Decomposition Products**

Thermal decomposition may result in the release of toxic and/or irritating fumes water vapour, carbon dioxide, oxides of nitrogen, trace of hydrogen chloride.

# Possibility of hazardous reactions

Not available.

## **Hazardous Polymerization**

Not available.

### 11. TOXICOLOGICAL INFORMATION

#### **Toxicology Information**

Toxicity data for material given below.

### **Acute Toxicity - Oral**

Quaternary ammonium salt LD50: 350 mg/kg oral, rat

Surfactant LD50: 3,000 mg/kg oral, mouse

#### Ingestion

Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

#### Inhalation

Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.

#### Chin

May be irritating to skin. The symptoms may include redness, itching and swelling.

#### Eve

May be irritating to eyes. The symptoms may include redness, itching and tearing.

### **Respiratory sensitisation**

Not expected to be a respiratory sensitiser.

### **Skin Sensitisation**

Not expected to be a skin sensitiser.

### Germ cell mutagenicity

Not considered to be a mutagenic hazard.

### Carcinogenicity

Not considered to be a carcinogenic hazard.

### **Reproductive Toxicity**

Not considered to be toxic to reproduction.

### **STOT-single exposure**

Not expected to cause toxicity to a specific target organ.

# STOT-repeated exposure

Not expected to cause toxicity to a specific target organ.

# **Aspiration Hazard**

Not expected to be an aspiration hazard.

# 12. ECOLOGICAL INFORMATION

### **Ecotoxicity**

Harmful to aquatic life.

### Persistence and degradability

Not available

### Mobility

Not available

# **Bioaccumulative Potential**

Not available

#### **Other Adverse Effects**

Not available

#### **Environmental Protection**

Prevent large amounts from entering waterways, drains and sewers.

### 13. DISPOSAL CONSIDERATIONS

### **Disposal considerations**

Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations.

#### 14. TRANSPORT INFORMATION

### **Transport Information**

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea

### **U.N. Number**

None Allocated

#### **UN** proper shipping name

None Allocated

### Transport hazard class(es)

None Allocated

### **Special Precautions for User**

Not available

### **IMDG Marine pollutant**

No

# **Transport in Bulk**

Not available

### 15. REGULATORY INFORMATION

# **Regulatory information**

Not classified as Hazardous according to the Globally Harmonised System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)

## **Poisons Schedule**

Not Scheduled

### **16. OTHER INFORMATION**

# Date of preparation or last revision of SDS

SDS created: June 2016
